FRANKLIN BROTHERS

INCREASE WONDERFUL

Exports of Breadstuffs from Southern Ports for Nine Months.

GOES INTO MILLIONS.

The Total Reaches \$85,817,061 Against \$58,699,702 Last Year—The Increase at Galveston and New Orleans Is \$14,000,000.

Baltimore, Oct. 19.—The progressive record made at southern ports in the export of breadstuffs is indicated by an analysis made this week by the Manufacturers' Record of the movement of such products during the first nine months of this year in comparison with that of the same period last year. The value of breadstuffs exported in the nine months was \$213,293,084, or an increase of \$38,762,936, or 22 per cent over the same period last year. The exports at southern ports increased from \$58,699,702 to \$85,817,061, or \$27,117,359, equal to nearly 70 per cent of the total increase at all ports. The increases at New Orleans was from \$12,519,694 to \$22,618,210; Galveston, from \$6,739,645 to \$10,497,028, or \$3,757,383; and at Mobile, from \$990,873 to \$1,488,948, or \$498,075.

The industrial movement is increasing wonderfully, especially in wood-working. A significant move in the establishment at Thomasville, N. C., of a branch factory by a New England firm engaged in the manufacture of machinery for making chairs, cabinets, school furniture and general furniture. It is another case of migration of an industry to the region where a market has been created by the rapid growth of factories. North Carolina now occupying an important place in the southern furniture-making industry. With High Point leading in this respect, there are many woodworking plants in other towns of the state and a contract has just been let for a furniture factory at Albemarle.

At Columbus, Ga., two plants will be absorbed by a new company which will operate a large factory for the manufacture of sash, doors and blinds and there is a probability that Toccoa, in the same state, may have a fruit and vegetable box factory. Woodworking plants are also planned for Beaumont and Marshall, Tex., and Greenville, S. C.

A Duluth manufacturer will establish in timber lands of Louisiana mills for the manufacture of the finest grades of short leaf pine; large tracts of timber land will be developed by the Clear Creek Lumber company of Alabama, while three lumbering concerns with a capital stock of \$100,000 each have recently been organized in southern Mississippi and quite a number of others with capital stocks ranging from \$5000 to \$50,000.

The development of the oil regions in the southwest is giving great impetus to many industries in that section of the country and it is expected that rice growing and rice milling business in southwestern Louisiana and eastern Texas will be advanced upon a more extended scale than ever before.

Big Orders for Steel Rails.

New York, Oct. 19.—Orders for 1,300,000 tons of steel rails for delivery in 1902 have been placed with the various manufacturers to which must be added 250,000 tons held over from this year's orders making the total upon the books, 1,650,000 tons. The orders for next year, it is estimated, will be about 2,800,000 tons. The output of rails in 1900 was 2,383,650 tons. It is understood that the price is at present being maintained at \$28 a ton.

He declined to make any statement as to the missing funds of the bank amounting to \$5900. He was fashionably dressed and did not seem disturbed by his position. New York, Oct. 19.—A movement is on foot, backed by some of the leading members of the turf, to stop, as far as possible, the transfer of stable secrets, from trainers to plungers. It is claimed that the cause of the trouble is found in the establishment of a public training stable.

REFUSES TO TALK.

Ambassador Choate Would Not Be Interviewed to the Isthmian Treaty.

New York, Oct. 19.—Ambassador Choate arrived from England today. Mr. Choate was unwilling to discuss the reasons for his return home or talk about the the isthmian canal treaty. He said:

"I cannot talk about this matter, nor would it be right for me to discuss possible treaties or canal question. I have had a most delightful trip across and have enjoyed myself very much. I shall remain over here until the new year and of course shall go to Washington and confer with the president and Secretary Hay. I shall not go to Washington for a few days.

A number of other questions regarding England's attitude on the canal question was asked the ambassador, but to all of them he smilingly gave them the same reply, that he would not discuss the affairs.

CALEB POWERS' TRIAL.

The State Finish Taking Testimony of Its Witnesses.

Georgetown, Oct. 19.—John W. Ray, clerk to Appellate Judge White, was the first witness this morning in the trial of Caleb Powers for the murder of William Goebel. He testified that an hour before Goebel was shot on Jan. 30, Leander Guffy, tipstaff of the court of appeals, and son of Judge L. D. Guffy, said: "Goebel will never be governor. He will be shot before the general assembly meets this morning."

With Ray's testimony the commonwealth closed its side of the case. The prisoner then retired to consult with his counsel and in a few moments Judge Jere Morton began to speak, setting forth briefly the defendants side of the case.

Lumber dealers all over the country are the principal owners of stock. It is alleged that stock valued at \$2,000,000 was illegally issued to the defendants to give them control of the mines.

First Marriage Void.

Okolona, Miss., Oct. 19.—At the term of the circuit court just closed at Houston, a defendant was charged with bigamy and pleaded duress as to first marriage, sustaining his plea by proof. The court charged the jury that marriage in Mississippi was a civil contract, requiring the consent of both parties, that the marriage proven to be under duress was absolutely void and instructed them to find for defendant.

No, Teddy, if you are really trying to copy Mr. McKinley, you have overlooked his table manners. He never had the colored brother to dinner with him.

A man like Depew, whose fame rests upon his reputation as a speaker, is taking mighty long chances when he marries a woman who can speak four languages.

A suit for heavy damages was filed in the district court Saturday. Mrs. B. F. Hawkins et al are plaintiffs and the I. & G. N. R. R. Co. are defendants. The suit is for damages in the sum of \$20,000 for the death of Willie King, the little son of Mrs. Hawkins, which occurred at the school grounds January 18 last. The little boy with others was playing with a very heavy sewer pipe which had been left near the track of the I. & G. N. The pipe started rolling down the embankment and caught the child under it, fatally crushing him. Plaintiff charges that the railroad is responsible for "carelessness and wrongful act in storing and placing upon the school grounds certain pieces of cement or iron pipe."—Marlin Ball.

BIG FIRE IN HOUSTON

The Magnificent Hutchins House Almost Totally Destroyed.

ONE LIFE WAS LOST.

It Is Supposed He Was One of the Guests Who Failed to Escape. The Total Loss Will Reach Close to \$250,000.

Houston, Oct. 19.—Fire broke out in the rear part of the Hutchins House early this morning. The flames spread rapidly to all parts of the upper stories of the building. The guests, of whom the hotel was full, were aroused by the night force and most of them escaped. In fact only one fatality is known to have resulted from the fire. This was a person who was heard to cry for help and firemen looking in the direction from which the sound came saw a man believed to be the guest of the hotel, but whose identity was unknown, sink back into the flames.

The building was the property of Neuhaus Bros. & Kessler of Schulenberg, Tex., and was valued at about \$125,000. The equipment also belonged to the same firm and probably valued at \$50,000. Other losses, it is believed, will run the loss to about \$250,000.

T. J. and J. T. Boyle are proprietors of the hotel and within the past few months \$55,000 have been expended in remodeling and repairing the building. The fire was confined to the hotel. All the inside of the building burned. Loss almost complete.

The Spanish octette was stopping at the hotel and lost all instruments valued at \$3000.

The Agricultural and Mechanical foot ball team were in the hotel, but all escaped without injury.

The fire is believed to be of incendiary origin.

Sixteen white waitresses were recently brought from Kansas City to replace negro help and the discharged negro waiters are under suspicion and several arrests have been made.

Several firemen were injured, but none seriously.

The guests lost considerable valuables.

For several days she had been brooding over some troubles, and only two days ago made her will. She was well to do financially.

Lucille McBeam, at her boarding-house, cut her throat from ear to ear and bled to death within 15 minutes after committing the act. She was unmarried and little is known of her life.

NO DUTY TO PAY.

A Schooner of Coal Reached Hawaii in Time to Avoid the Tax.

New York, Oct. 19.—The classification board of United States general appraisers has rendered a decision upon a protest resulting out of the change of the tariff laws and regulations in Hawaii, when that republic came under the jurisdiction of the United States. Alexander H. Baldwin of Honolulu imported 950 tons of coal from Newcastle, N. S. W., which arrived at the port of Mahukona, Hawaii, on June 8, 1900. The coal was properly entered by representatives of the importers on June 13, 1900, and the collector of the port, acting under the authority of the Hawaiian republic customs laws, granted a permit for the landing of coal.

Under the Hawaiian tariff, coal was exempt from duty. Before the coal was discharged, further orders were received by the captain of the schooner containing the coal instructing him to take the coal to Honolulu.

On June 14, 1900, the custom laws and regulations of the Hawaiian republic were displaced by those of the United States going into force.

Upon the schooners arriving at Honolulu the collector there assessed the coal for duty at the rate of 67 cents per ton under the provisions of the United States tariff act.

The question at issue was whether the importation of the coal had been complete. The importers in their protest claimed free entry. The board sustained the protest.

LEAVE ENGLISH TURF.

Expulsion of Lester Reiff Lead Americans to Take the Step.

London, Oct. 19.—As a result of Lester Reiff's expulsion from the English turf, important withdrawals of American trainers and jockeys from the turf here is likely to occur in 1902. Enoch Wishard immediately cancelled all his English engagements after Reiff's expulsion and turned Richard Croker's and John A. Drake's horses out and declared they would not enter the English races till Reiff was reinstated. While Haggins has had many offers to train in England next season, it is generally expected he will follow Wishard's example.

As a matter of fact few American owners have won much money in England this year. William C. Whitney won a number of rich stakes and Edward Corrigan made a successful year, but Croker and other Americans found that handicapper not handicapping the horses, but the trainers and short odds offered rendered financial success almost impossible. It is possible that Wishard will train in France during 1902.

Fire at McAlester.

South McAlester, I. T., Oct. 19.—This place was visited by one of the most disastrous fires in its history Friday. Over \$35,000 worth of property went up in smoke in less than two hours. The fire originated in the telephone exchange from a defective fuse. The Gill hotel was the heaviest loser, its loss being \$15,000, insured for \$3500.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has
been branded by the most compe-
tent authorities. They have dis-
pelled the silly notion that one kind
of food is needed for brain, another
for muscles, and still another for
bones. A correct diet will not only
nourish a particular part of the body,
but it will sustain every other part.
Yet, however good your food may
be, its nutriment is destroyed by in-
digestion or dyspepsia. You must
prepare for their appearance or pre-
vent their coming by taking regular
doses of Green's August Flower, the
favorite medicine of the healthy mil-
lions. A few doses aids diges-
tion, stimulates the liver to healthy

DICKINSON IS BLAMED

Held Responsible for the Continued
Captivity of Miss Stone.

REWARD TOO SMALL.

It Is Claimed She Would Have Been
Released Had the Sum Offered
Been Larger—Bulgaria Dis-
claims All Responsibility.

London, Oct. 19.—Four thousand Bul-
garian and Turkish troops have been
occupied in the effort to obtain Miss
Stone's release, says a dispatch from
Sofia to the Morning Leader. It is be-
lieved here her release would have been
effected but for Mr. Dickinson's refusal
to offer her captors more than an ordi-
nary pour boire. Mr. Dickinson's ex-
traordinary action is regarded as sui-
cidal. A large sum must be paid to the
brigands, as otherwise Miss Stone's life
will be sacrificed.

NOT RESPONSIBLE.

Bulgaria Objects to the Crime Being
Placed upon That Country.

Vienna, Oct. 19.—According to The
Politisch correspondent, M. Saratoff,
the Bulgarian minister of the interior,
and for the time being minister of for-
eign affairs, addressed a note to Mr.
Dickinson, United States consul general
at Constantinople, a few days ago, in
which, after complaining that the con-
sul general had expressed dissatisfaction
with the measures the Bulgarian gov-
ernment had taken against the kidnappers
of Miss Stone, he strongly protested
against his government being held re-
sponsible for a crime committed on
Turkish territory and declared that in
order to guard itself against a serious
and unmerited accusation the Bulgarian
government had resolved, should the
robber band try to cross the Bulgarian
frontier or succeed in stealing into Bul-
garia, to have it mercilessly pursued
and annihilated by Bulgarian troops.

"We will not enter into any negotia-
tions whatever for paying ransom,"
said M. Saratoff, "as we don't want the
precedents established for the many
robbers infesting the neighborhood to
turn to Bulgaria whenever that seems
to be to their advantage. We are firm-
ly determined to make an example
which will deter robbers from repeating
such speculations.

"It will then no longer be possible to
accuse Bulgaria of harboring secret
committees which organize bands for
kidnaping foreigners in Turkey and re-
moving them to Bulgaria, there peace-
fully to enjoy the ransom."

IN BEHALF OF BOERS.

Special Representative O'Beirne Will
Seek Assistance of Mr. Hay.

Washington, Oct. 19.—Colonel James
R. O'Beirne of New York, special rep-
resentative of the Boer government in
this country, was one of the president's
callers Friday, but did not speak to him
about the Boer situation. He will seek,
however, to go over the situation in-
formally with the secretary of state in
hope that some steps may be taken on
the part of the United States, by a ten-
der of good offices, or by an expression
of desire that hostilities cease, to bring
about a settlement of the war in South
Africa.

General O'Beirne says his latest ad-
vices indicate that the Boers may be
able to secure Delagoa bay and make it
a base of operations.

Soldier Stole a Handcar.

New Albany, Ind., Oct. 19.—Elzy T.
Taylor enlisted at Louisville two weeks
ago and after receiving his uniform was
given a brief furlough to visit relatives
in Martin county before reporting for
duty. The day before he was to report
for duty, while returning, he missed
connection at North Vernon. He started
to walk to Louisville and after al-
most tiring himself out, he stole a hand-
car, pumped to this city, a distance of
28 miles in less than two hours, report-
ed for duty and was sent to Jefferson
baracks, St. Louis, where he was
arrested and brought back to Jef-
fersonville. He was tried Thursday,
Judge March released the young soldier
and gave him a letter to his superior of-
ficers exonerating him.

Death of Judge Scales.

Vinita, I. T., Oct. 19.—Judge Joab
Scales, a prominent citizen of the Cher-
okee Nation, died at his home in Web-
bers Falls, I. T., aged 70 years. He
has held many offices of trust in the
Cherokee tribal government and for
years has been a leader among his
people.

Leading Physician Dead.

MORE TROOPS NEEDED.

Not Enough Soldiers in the Philippines
to Cope With Insurgents.

Washington, Oct. 19.—Need of addi-
tional troops in the Philippines has
been furnished by a fresh disaster
which has befallen the American troops
in the island of Samar.

The Ninth infantry, which sustained
such a serious loss at Balangiga, is
again the sufferer. Company E, of the
regiment lost 10 men killed and 6
wounded in what appears to have been
an ambush in the field in the province
of Lower Candara.

Considerable concern has been caused
in the war department by this latest
evidence of insurgent activity in Samar.
Some satisfaction is found in the heavy
loss sustained by the attacking force,
but while the enemy lost one-fifth in
killed, the American command, almost
overwhelmed by the numerical major-
ity of the enemy, had one-third of its
men killed and wounded.

The belief is growing in the war de-
partment that Brigadier General
Hughes, in command in Samar, under-
estimates the strength of the rebels.
Major General Chaffee sent him an ad-
ditional regiment, which brought his
force up to 3500, but additional men can
not be spared from Luzon, because of
the danger of an outbreak in that is-
land, but detachments will be rushed
from other points to reinforce the troops
now there.

In his annual report Adjutant Gen-
eral Corbin says the force in the Philip-
pines will be reduced by next June by
20,488 men in consequence of the expira-
tion of their terms of enlistment. Troops
will be sent to replace these men and it
is probable reinforcements will be dis-
patched in order that action can be taken
which will stamp out the last vestige of
insurrection in all the islands.

THE END IN SIGHT.

Evidence in Schley Case May Be Finished
Within a Week.

Washington, Oct. 19.—Just before the
Schley court of inquiry adjourned Fri-
day, Attorney Rayner, counsel for Ad-
miral Schley informed the court that he
hoped to be able to conclude the pres-
entation of testimony for the applicant
by the close of next week. He added
that he thus far had not had opportuni-
ty to consult with witnesses who are
still to be heard. He therefore asked
that an adjournment be taken until
Monday. Speaking for the court, Ad-
miral Dewey said he was most happy to
grant the request. Accordingly, the
court adjourned until 11 o'clock Monday.

The last witness Friday was Lieut.
B. W. Wells, Jr., who served during
the war with Spain as Admiral Schley's
flag lieutenant or private secretary and
his testimony was not completed when
court adjourned.

Lieutenant Commander Nicholson,
told the story of the battle of July 3, as
he saw it from the deck of the Oregon.
He said the movements of the Oregon
had not been controlled by signals from
the Brooklyn and he expressed the op-
inion that the Oregon was nearer the
Colon than the Brooklyn was. Mr.
Hanley said that the port engines of the
Texas had not been stopped during the
battle of July 3.

From the line of the examination re-
lating to the fight of July 3 already pur-
sued it is evident that it is the inten-
tion of Mr. Rayner to have Lieutenant
Wells give a complete history of Ad-
miral Schley's actions during the Span-
ish war. When the court adjourned he
reached the period of the battle of July
3, having gone quite minutely into other
incidents of the campaign up to that
time, including the receipts of dispatches
from Admiral Sampson.

saler and one retailer from each of the

Steamer Michigan Sinks.

Muskegon, Mich., Oct. 19.—Steamer
State of Michigan went down four miles
northeast of White Lake harbor Friday.
The boat is now lying in 40 feet of
water in the path of coast steamers.
The crew escaped in boats with the as-
sistance of the White Lake life saving
crew. A piston rod broke, and accord-
ing to the story of the captain, forced
a hole through the bottom of the boat
through which the water poured with
such force and quantity that the engine
hands were driven out of the room and
she was abandoned to her fate and soon
went down.

INCREASE WONDERFUL

Exports of Breadstuffs from Southern Ports for Nine Months.

GOES INTO MILLIONS.

The Total Reaches \$85,817,061 Against \$58,699,702 Last Year—The Increase at Galveston and New Orleans Is \$14,000,000.

Baltimore, Oct. 19.—The progressive record made at southern ports in the export of breadstuffs is indicated by an analysis made this week by the Manufacturers' Record of the movement of such products during the first nine months of this year in comparison with that of the same period last year. The value of breadstuffs exported in the nine months was \$213,293,084, or an increase of \$38,762,936, or 22 per cent over the same period last year. The exports at southern ports increased from \$58,699,702 to \$85,817,061, or \$27,117,359, equal to nearly 70 per cent of the total increase at all ports. The increases at New Orleans was from \$12,519,694 to \$22,618,210; Galveston, from \$6,739,645 to \$10,497,028, or \$3,757,383; and at Mobile, from \$990,873 to \$1,488,948, or \$498,075.

The industrial movement is increasing wonderfully, especially in wood-working. A significant move in the establishment at Thomasville, N. C., of a branch factory by a New England firm engaged in the manufacture of machinery for making chairs, cabinets, school furniture and general furniture. It is another case of migration of an industry to the region where a market has been created by the rapid growth of the North Carolina now occupying an important place in the southern furniture-making industry. With High Point leading in this respect, there are many woodworking plants in other towns of the state and a contract has just been let for a furniture factory at Albemarle.

At Columbus, Ga., two plants will be absorbed by a new company which will operate a large factory for the manufacture of sash, doors and blinds and there is a probability that Toccoa, in the same state, may have a fruit and vegetable box factory. Woodworking plants are also planned for Beaumont and Marshall, Tex., and Greenville, S. C.

A Duluth manufacturer will establish in timber lands of Louisiana mills for the manufacture of the finest grades of short leaf pine; large tracts of timber land will be developed by the Clear Creek Lumber company of Alabama, while three lumbering concerns with a capital stock of \$100,000 each have recently been organized in southern Mississippi and quite a number of others with capital stocks ranging from \$5000 to \$50,000.

The development of the oil regions in the southwest is giving great impetus to many industries in that section of the country and it is expected that rice growing and rice milling business in southwestern Louisiana and eastern Texas will be advanced upon a more extended scale than ever before.

Big Orders for Steel Rails.

New York, Oct. 19.—Orders for 1,300,000 tons of steel rails for delivery in 1903 have been placed with the various manufacturers to which must be added 250,000 tons held over from this year's orders making the total upon the books, 1,550,000 tons. The orders for next year, it is estimated, will be about 2,800,000 tons. The output of rails in 1900 was 2,383,650 tons. It is understood that the price is at present being maintained at \$28 a ton.

White Monument Dedicated.

Knoxville, Oct. 19.—Captain Richmond P. Hobson arrived at Knoxville early this morning to attend the dedication of the monument marking the site of the home of General James White, the founder of Knoxville, who was Hobson's great-great grandfather. The ceremonies occurred on the lawn of the suburban home of Hon. Jesse C. Groner, where General White's house stood. It was preceded by a street parade headed by Hobson. Hon. Richmond Pearson of North Carolina, an uncle of Hobson, was also a guest of honor.

Missing Bank Messenger Surrenders.

New York, Oct. 19.—George Armitage, the missing messenger of the Bank of New Amsterdam, walked into the tenderloin police station and gave himself up. He declined to make any statement as to the missing funds of the bank amounting to \$5900. He was fashionably dressed and did not seem disturbed by his position. Detectives tried to get him to make a statement, but he declined to discuss his case. He had only \$31.40 on him when he surrendered.

Yacht Defender Broken Up.

New York, Oct. 19.—The yacht Defender, which defeated the Valkyrie II in the cup races, is now a thing of the past. She has been broken up and a car laden with aluminum, bronze and

leaves some of her component parts, taken to Newark, N. J. It was consigned to the junk yards there.

Against Stable Secrets.

New York, Oct. 19.—A movement is on foot, backed by some of the leading members of the turf, to stop, as far as possible, the transfer of stable secrets, from trainers to pluggers. It is claimed that the cause of the trouble is found in the establishment of a public training stable.

REFUSES TO TALK.

Ambassador Choate Would Not Be Interviewed to the Isthmian Treaty.

New York, Oct. 19.—Ambassador Choate arrived from England today. Mr. Choate was unwilling to discuss the reasons for his return home or talk about the the isthmian canal treaty. He said:

"I cannot talk about this matter, nor would it be right for me to discuss possible treaties or canal question. I have had a most delightful trip across and have enjoyed myself very much. I shall remain over here until the new year and of course shall go to Washington and confer with the president and Secretary Hay. I shall not go to Washington for a few days.

A number of other questions regarding England's attitude on the canal question was asked the ambassador, but to all of them he smilingly gave them the same reply, that he would not discuss the affairs.

CALEB POWERS' TRIAL.

The State Finish Taking Testimony of Its Witnesses.

Georgetown, Oct. 19.—John W. Ray, clerk to Appellate Judge White, was the first witness this morning in the trial of Caleb Powers for the murder of William Goebel. He testified that an hour before Goebel was shot on Jan. 30, Leander Guffy, tipstaff of the court of appeals, and son of Judge L.D. Guffy, said: "Goebel will never be governor. He will be shot before the general assembly meets this morning."

With Ray's testimony the commonwealth closed its side of the case. The prisoner then retired to consult with his counsel and in a few moments Judge Jere Morton began to speak, setting forth briefly the defendants side of the case.

Belvidere, Ill., Oct. 19.—A suit involving \$2,000,000 worth of mining stock was filed in the circuit court here against ex-Governor Powers of Montana and others, by capitalists of this city and Chicago, who are the officers and directors. Lumber dealers all over the country are the principal owners of stock. It is alleged that stock valued at \$2,000,000 was illegally issued to the defendants to give them control of the mines.

First Marriage Void.

Okolona, Miss., Oct. 19.—At the term of the circuit court just closed at Houstons, a defendant was charged with bigamy and pleaded duress as to first marriage, sustaining his plea by proof. The court charged the jury that marriage in Mississippi was a civil contract, requiring the consent of both parties, that the marriage proven to be under duress was absolutely void and instructed them to find for defendant.

A suit for heavy damages was filed in the district court Saturday. Mrs. B. F. Hawkins et al are plaintiffs and the I. & G. N. R. R. Co. are defendants. The suit is for damages in the sum of \$20,000 for the death of Willie King, the little son of Mrs. Hawkins, which occurred at the school grounds January 18 last. The little boy with others was playing with a very heavy sewer pipe which had been left on the track of the I. & G. N. The pipe started rolling down the embankment and caught the child under it, fatally crushing him. Plaintiff charges that the railroad is responsible for "carelessness and wrongful act in storing and placing upon the school grounds certain pieces of cement or iron pipe."—Marlin Ball.

BIG FIRE IN HOUSTON

The Magnificent Hutchins House Almost Totally Destroyed.

ONE LIFE WAS LOST.

It Is Supposed He Was One of the Guests Who Failed to Escape. The Total Loss Will Reach Close to \$250,000.

Houston, Oct. 19.—Fire broke out in the rear part of the Hutchins House early this morning. The flames spread rapidly to all parts of the upper stories of the building. The guests, of whom the hotel was full, were aroused by the night force and most of them escaped. In fact only one fatality is known to have resulted from the fire. This was a person who was heard to cry for help and firemen looking in the direction from which the sound came saw a man believed to be the guest of the hotel, but whose identity was unknown, sink back into the flames.

The building was the property of Neuhaus Bros. & Kessler of Schulenberg, Tex., and was valued at about \$125,000. The equipment also belonged to the same firm and probably valued at \$50,000. Other losses, it is believed, will run the loss to about \$250,000.

T. J. and J. T. Boyle are proprietors of the hotel and within the past few months \$55,000 have been expended in remodeling and repairing the building. The fire was confined to the hotel. All the inside of the building burned. Loss almost complete.

The Spanish octette was stopping at the hotel and lost all instruments valued at \$3000.

The Agricultural and Mechanical foot ball team were in the hotel, but all escaped without injury.

The fire is believed to be of incendiary origin.

Sixteen white waitresses were recently brought from Kansas City to replace negro help and the discharged negro waiters are under suspicion and several arrests have been made.

Several firemen were injured, but none seriously. The guests lost considerable valuables.

Two Suicides at Galveston.

Galveston, Oct. 19.—Mrs. Ivanovich, proprietress of a saloon and boarding-house on the wharf front, ended her life by drowning. The woman left a note written in German bidding goodbye to all. For several days she had been brooding over some troubles, and only two days ago made her will. She was well to do financially.

Lucille McBeam, at her boarding-house, cut her throat from ear to ear and bled to death within 15 minutes after committing the act. She was unmarried and little is known of her life.

NO DUTY TO PAY.

A Schooner of Coal Reached Hawaii in Time to Avoid the Tax.

New York, Oct. 19.—The classification board of United States general appraisers has rendered a decision upon a protest resulting out of the change of the tariff laws and regulations in Hawaii, when that republic came under the jurisdiction of the United States. Alexander H. Baldwin of Honolulu imported 950 tons of coal from Newcastle, N. S. W., which arrived at the port of Mahukona, Hawaii, on June 8, 1900. The coal was properly entered by representatives of the importers on June 13, 1900, and the collector of the port, acting under the authority of the Hawaiian republic customs laws, granted a permit for the landing of coal.

Under the Hawaiian tariff, coal was exempt from duty. Before the coal was discharged, further orders were received by the captain of the schooner containing the coal instructing him to take the coal to Honolulu.

On June 14, 1900, the custom laws and regulations of the Hawaiian republic were displaced by those of the United States going into force.

Upon the schooners arriving at Honolulu the collector there assessed the coal for duty at the rate of 57 cents per ton under the provisions of the United States tariff act.

The question at issue was whether the importation of the coal had been complete. The importers in their protest claimed free entry. The board sustained the protest.

LEAVE ENGLISH TURF.

Expulsion of Lester Reiff Lead Americans to Take the Step.

London, Oct. 19.—As a result of Lester Reiff's expulsion from the English turf, important withdrawals of American trainers and jockeys from the turf here is likely to occur in 1902. Enoch Wishard immediately cancelled all his English engagements after Reiff's expulsion and turned Richard Croker's and John A. Drake's horses out and declared they would not enter the English races till Reiff was reinstated. While Huggins has had many offers to train in England next season, it is generally expected he will follow Wishard's example.

As a matter of fact few American owners have won much money in England this year. William C. Whitney won a number of rich stakes and Edward Corrigan made a successful year, but Croker and other Americans found that handicapper not handicapping the horses, but the trainers and short odds offered rendered financial success almost impossible. It is possible that Wishard will train in France during 1902.

Fire at McAlester.

South McAlester, I. T., Oct. 19.—This place was visited by one of the most disastrous fires in its history Friday. Over \$35,000 worth of property went up in smoke in less than two hours. Eleven buildings, the Gill hotel, telephone exchange, city hall, Bristow House, electric light office and six other small buildings were burned. The fire originated in the telephone exchange from a defective line. The Gill hotel was the heaviest loser, its loss being \$15,000, insured for \$3500.

Memphis, Oct. 19.—Information has been received here of the killing of Harry Cook by George Christian in a levee camp a few miles west of Rosedale, Miss. Cook lived here and was only about 30 years of age. He had recently gone to the levee camp. It is said that Christian shot Cook in self-defense. Both men are married.

Hare of the regular army, who is a candidate for a brigadier generalship. Major Hare distinguished himself in the Philippines. The president assures the promotion of Major Hare.

Was 110 Years Old.

St. Joseph, Mo., Oct. 19.—Ann Taylor, aged more than 110 years, who, for 70 years was a slave, died at the county farm after a short illness. She was born near Mount Vernon, Va., and for more than a century used tobacco and liquor. All of her relatives have been dead 50 years. For 20 years she was an inmate of the county farm.

CROSS.

Cross, Texas, Oct. 14, 1901.—We had a nice rain last Friday, but more is needed as stock water is scarce.

Rev. Black has accepted a call at Concord for the coming year.

The school at Concord opened today.

Miss Ida McClung is visiting in this section at present.

Several wagons left for the saw mill today. They will bring back lumber to enlarge the school house at this place.

Mr. E. Chapman has a painful wound in the hand, caused by the bite of a gray wolf that some showmen had on exhibition here a few nights ago.

We were glad to see old Father Biggs out at church again, after a continued illness.

Mr. Bill Rice is confined to his room as a result of injuries received while returning from the saw mill last week.

Dr. Ware, of Madison county, has been shaking hands with friends here for the past few days. Ned.

Almonds.

The world's almond crop, exclusive of those raised in California and the west, comes from Italy, Sicily, Majorca, Spain, France, Portugal, Morocco and Algiers. The highly prized Jordan almonds come from Malaga, Spain, and not from the Jordan river, as many people suppose. The common almond is the most indigestible of all the nuts and contains very little nourishment. There are many ways, however, in which it is advantageously used as a desert or as a flavoring. One peculiarity about the almond tree is that its leaves contain prussic acid and are therefore poisonous, while the fruit may be eaten with impunity.

A Sure Thing Sport.

A well known politician on setting out for a day's sport with a friend pointed to a large spaniel which lay apparently asleep in the hall and bet his friend a guinea he could not attract the dog's attention.

The bet was readily accepted, and after the failure of a shrill whistle and a blank cartridge to cause the slightest movement the guinea was delivered up.

"That's my old dog Mahatma I had stuffed a few weeks ago," laughed the politician, "and that's the tenth guinea he's brought me."—London Tit-Bits.

Italian Bees.

Italian bees are more hardy than the native and more profitable. They are more energetic and will gather honey in partial droughts when natives will do nothing. They will gather honey from blossoms that natives will not touch. They are stronger on the wing, will fly more directly and swiftly and are not so irritable.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has
been branded by the most compe-
tent authorities. They have dis-
pelled the silly notion that one kind
of food is needed for brain, another
for muscles, and still another for
bones. A correct diet will not only
nourish a particular part of the body,
but it will sustain every other part.
Yet, however good your food may
be, its nutriment is destroyed by in-
digestion or dyspepsia. You must
prepare for their appearance or pre-
vent their coming by taking regular
doses of Green's August Flower, the
favorite medicine of the healthy
millions. A few doses aids diges-
tion, stimulates the liver to healthy
action, purifies the blood, and makes
you feel buoyant and vigorous. You

remedies at Wilson-Jenkins Drug

DICKINSON IS BLAMED

Held Responsible for the Continued
Captivity of Miss Stone.

REWARD TOO SMALL.

It Is Claimed She Would Have Been
Released Had the Sum Offered

Been Larger—Bulgaria Dis-
claims All Responsibility.

London, Oct. 18.—Four thousand Bul-
garian and Turkish troops have been
occupied in the effort to obtain Miss
Stone's release, says a dispatch from
Sofia to the Morning Leader. It is be-
lieved here her release would have been
effected but for Mr. Dickinson's refusal
to offer her captors more than an ordi-
nary pour boire. Mr. Dickinson's ex-
traordinary action is regarded as sui-
cidal. A large sum must be paid to the
brigands, as otherwise Miss Stone's life
will be sacrificed.

NOT RESPONSIBLE.

Bulgaria Objects to the Crime Being
Placed upon That Country.

Vienna, Oct. 19.—According to The
Politisch correspondent, M. Saratoff,
the Bulgarian minister of the interior,
and for the time being minister of for-
eign affairs, addressed a note to Mr.
Dickinson, United States consul general
at Constantinople, a few days ago, in
which, after complaining that the con-
sul general had expressed dissatisfaction
with the measures the Bulgarian gov-
ernment had taken against the kidnappers
of Miss Stone, he strongly protested
against his government being held re-
sponsible for a crime committed on
Turkish territory and declared that in
order to guard itself against a serious
and unmerited accusation the Bulgarian
government had resolved, should the
robber band try to cross the Bulgarian
frontier or succeed in stealing into Bul-
garia, to have it mercilessly pursued
and annihilated by Bulgarian troops.

"We will not enter into any negotia-
tions whatever for paying ransom,"
said M. Saratoff, "as we don't want the
precedents established for the many
robbers infesting the neighborhood to
turn to Bulgaria whenever that seems
to be to their advantage. We are firm-
ly determined to make an example
which will deter robbers from repeating
such speculations.

"It will then no longer be possible to
accuse Bulgaria of harboring secret
committees which organize bands for
kidnaping foreigners in Turkey and re-
moving them to Bulgaria, there peace-
fully to enjoy the ransom."

IN BEHALF OF BOERS.

Special Representative O'Beirne Will
Seek Assistance of Mr. Hay.

Washington, Oct. 19.—Colonel James
R. O'Beirne of New York, special rep-
resentative of the Boer government in
this country, was one of the president's
callers Friday, but did not speak to him
about the Boer situation. He will seek,
however, to go over the situation in-
formally with the secretary of state in
hope that some steps may be taken on
the part of the United States, by a ten-
der of good offices, or by an expression
of desire that hostilities cease, to bring
about a settlement of the war in South
Africa.

General O'Beirne says his latest ad-
vices indicate that the Boers may be
able to secure Delagoa bay and make it
a base of operations.

Soldier Stole a Handcar.

New Albany, Ind., Oct. 19.—Elzy T.
Taylor enlisted at Louisville two weeks
ago and after receiving his uniform was
given a brief furlough to visit relatives
in Martin county before reporting for
duty. The day before he was to report
for duty, while returning, he missed
connection at North Vernon. He start-
ed to walk to Louisville and after al-
most tiring himself out, he stole a hand-
car, pumped to this city, a distance of
28 miles in less than two hours, report-
ed for duty and was sent to Jefferson
barracks, St. Louis, where he was
arrested and brought back to Jef-
fersonville. He was tried Thursday,
Judge March released the young soldier
and gave him a letter to his superior of-
ficers exonerating him.

okee Nation, died at his home in Web-
bers Falls, I. T., aged 70 years. He has

MORE TROOPS NEEDED.

Not Enough Soldiers in the Philippines
to Cope With Insurgents.

Washington, Oct. 19.—Need of addi-
tional troops in the Philippines has
been furnished by a fresh disaster
which has befallen the American troops
in the island of Samar.

The Ninth infantry, which sustained
such a serious loss at Balangiga, is
again the sufferer. Company E, of the
regiment lost 10 men killed and 6
wounded in what appears to have been
an ambush in the field in the province
of Lower Candara.

Considerable concern has been caused
in the war department by this latest
evidence of insurgent activity in Samar.
Some satisfaction is found in the heavy
loss sustained by the attacking force,
but while the enemy lost one-fifth in
killed, the American command, almost
overwhelmed by the numerical major-
ity of the enemy, had one-third of its
men killed and wounded.

The belief is growing in the war de-
partment that Brigadier General
Hughes, in command in Samar, under-
estimates the strength of the rebels.
Major General Chaffee sent him an ad-
ditional regiment, which brought his
force up to 3500, but additional men can
not be spared from Luzon, because of
the danger of an outbreak in that is-
land, but detachments will be rushed
from other points to reinforce the troops
now there.

In his annual report Adjutant Gen-
eral Corbin says the force in the Philip-
pines will be reduced by next June by
20,488 men in consequence of the expira-
tion of their terms of enlistment. Troops
will be sent to replace these men and it
is probable reinforcements will be dis-
patched in order that action can be taken
which will stamp out the last vestige of
insurrection in all the islands.

THE END IN SIGHT.

Evidence in Schley Case May Be Finished
Within a Week.

Washington, Oct. 19.—Just before the
Schley court of inquiry adjourned Fri-
day, Attorney Rayner, counsel for Ad-
miral Schley informed the court that he
hoped to be able to conclude the pre-
sentation of testimony for the applicant
by the close of next week. He added
that he thus far had not had opportu-
nity to consult with witnesses who are
still to be heard. He therefore asked
that an adjournment be taken until
Monday. Speaking for the court, Ad-
miral Dewey said he was most happy to
grant the request. Accordingly, the
court adjourned until 11 o'clock Monday.

The last witness Friday was Lieut.
B. W. Wells, Jr., who served during the
war with Spain as Admiral Schley's
flag lieutenant or private secretary and
his testimony was not completed when
court adjourned.

Lieutenant Commander Nicholson,
told the story of the battle of July 3, as
he saw it from the deck of the Oregon.
He said the movements of the Oregon
had not been controlled by signals from
the Brooklyn and he expressed the op-
inion that the Oregon was nearer the
Colon than the Brooklyn was. Mr.
Hanley said that the port engines of the
Texas had not been stopped during the
battle of July 3.

From the line of the examination re-
lating to the fight of July 3 already pur-
sued it is evident that it is the inten-
tion of Mr. Rayner to have Lieutenant
Wells give a complete history of Ad-
miral Schley's actions during the Span-
ish war. When the court adjourned he
reached the period of the battle of July
3, having gone quite minutely into other
incidents of the campaign up to that
time, including the receipts of dispatches
from Admiral Sampson.

Steamer Michigan Sinks.

Muskegon, Mich., Oct. 19.—Steamer
State of Michigan went down four miles
northeast of White Lake harbor Friday.
The boat is now lying in 80 feet of
water in the path of coast steamers.
The crew escaped in boats with the as-
sistance of the White Lake life saving
crew. A piston rod broke, and accord-
ing to the story of the captain, forced
a hole through the bottom of the boat
through which the water poured with
such force and quantity that the engine
hands were driven out of the room and
she was abandoned to her fate and soon
went down.
